GlobalCom Information Services and ZeroSoft collaborate to offer SayHi! IDD callback card

Singapore, 14 April 2006 – GlobalCom Information Services has embarked on a collaborative effort with ZeroSoft to launch the cost effective SayHi! IDD callback card. This card will offer value local and IDD callback services to customers from some 20 countries, with various promotions at different times.

This collaboration signifies a new beginning in both companies, as they embarked on programs and efforts to spur individual growth.

The card will first be offered to customers in Singapore. Mr Deivendran Pandi, Zerosoft (Singapore)'s director says that his main target demographics will be the Indian and Chinese expatriates as well as Filipinos locally.

“I have been in the telecommunications industry for 8 years now, and in Singapore for 5 years. Hence I am able to best understand and hence meet the needs of the local Indian expatriate community. Indeed, ever since setting up the www.phonecard.com.sg website last year, I have seen my customer base grow to over 5 thousand, selling 32 thousand to 35 thousand cards last year. Most of these cards were sold to Indian, Chinese and expatriates, as well as local Filipino. That is why I will be focusing my attention initially on these three main groups.” Mr Pandi explains.

Mr Pandi added that he is also very excited to have the opportunity to work hand in hand with GlobalCom Information Services.

“Because GlobalCom is one of the best players in the calling card industry, I am very excited about this new joint venture, and am sure it will be a great success. At this point in my business, I am looking for opportunities for growth. This chance to work with GlobalCom allows Zerosoft to latch on to GlobalCom's expertise in the technological aspects of the business. I am convinced that both companies will be able to grow together, taking the business out of the region. In fact, for this new venture, we are planning to launch SayHi! Call back service in India, as well as the Philippines. ”

The call-back card is available in dominations of SGD10 and is available for sale at www.phonecard.com.sg, the website managed by Zerosoft (Singapore).
